Face to Faces exhibition by Inhye Lee at the Galerie Charlot

Artists In Residence, Concerts, Openings, and Exhibitions, Events, Projects

Inhye Lee, is having an exhibition of her work at the **Galerie Charlot** in Paris, France. Entitled *Face to Faces*, this exhibition features a selection of interactive works created between 2006 and 2014 as well as photographic prints. Among the work exhibited is entitled "Accordion Face", which was developed during her residency at the Institute for Electronic Arts in **June of 2013**. "Accordion Face" is an interactive piece utilizing Max/MSP, an Arduino, and sonar proximity sensors which allows viewers to manipulate a different faces, squeezing, stretching, and distorting it while these actions also manipulate the sound being played along with the video.

Face to Faces is on display until December 20th, 2014.
